

## **Remorphing brings Innovators and Lateral Thinkers**

Remorphing is an organization that remorphs your organization, towards enabling and snug alignment of Vision and Capabilities. It is a syndication of the 100+ of the best of global industry experts and ivy-league academica. And it brings to you a revitalizing Program:

### **Innovators and Lateral Thinkers**

#### **Why This Program**

Foremost, to DEBUNK the mere sloganish talk around Innovation. This Program grabs the bull by its horns – let organizations smell REAL innovation, and REAL results of investing in a Culture of Innovation. Secondly, to take personal and team productivities to highs they deserve to be at, which is rather possible only by constantly innovating at the workplace. Thirdly, to KILL the Dreariness that has come to characterize working in today's glass-paneled factories. This is the way to work, and leave competition miles behind. The smiles we have given to people's faces, as they walk into their work place is our best testimonial of this Program. Let us add more color to your organization too and solve your live problems.

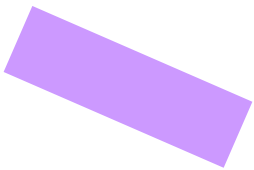

#### **Innovators and Lateral Thinkers | A Snapshot**

*Talent - Temperament – Technique*
